Subject: RE: FOLLOW-UP: TIME-SENSITIVE - 4 MEETINGS/NEED YOUR RESPONSES - IMPORTANT TSCA SACC responses to 4 Questions regarding "Impartiality": 5 chemical risk evaluations that will be reviewed by the TSCA SACC

The January meeting is important as it is the last in the series of meeting needed October should be fine, but we are concerned with the number of SACC members whose terms expire in late January 2020 and your expires in April 2020. After the January 2020 meeting, there will likely be no TSCA SACC meetings for several months as the Agency has become work on the next 20 risk evaluations.

Regards,
Sharlene

Hi Sharlene,
Unfortunately I am not available any time in December.
I will need to get back to you on the January meeting, as we have not set our LT meetings yet. When do you need the answer by for January?
Cheers,
Conchita

EXTERNAL

Hi Conchita,

We have set up two more TSCA SACC meetings in the coming months.

1. Dec 2-6 (2 chemicals)
2. Jan 13-17 (2 chemicals)

Please confirm your availability for these two meetings.

Thanks,
Sharlene

Hi Sharlene,
I hope you are doing well. I am afraid that I am not longer available for the October meeting given key needs from the business that will require me to be traveling those days I had already separated.
I am sorry for the lack of availability, but the new role seems to be taking over my plans.
Hopefully we can cement meeting timing better for next year, once my new role is more stable.
I am happy to chat if you need me so.
Cheers,
Conchita

Importance: High

Hi Sharlene,

Thanks for the note. Apologies for the delay in replying but I was traveling.

There seems to be a mistake on my availability for the Oct meeting – your note below reads “Jimenez-Gonzalez (Oct 25-26)” – it should read Oct 24 and 25 (Thu and Friday).

Also, I am only available virtually (by phone) Nov 5-8.

I am not available during Dec.

I hope this helps.

Cheers,

Conchita

EXTERNAL

I've addressed this message to all 21 current TSCA SACC members, "bcc," to avoid inadvertent replies to all.

Greetings!

This is a follow-up message to the one I sent on June 24, 2019. Thank you again for your participation on the TSCA SACC.

I'll cut to the chase, there are 3 tentatively scheduled TSCA SACC meeting and a fourth one is being scheduled for November.

The TSCA SACC has a very busy schedule in 2019 with meetings scheduled from June through December 2019. On December 19, 2016, EPA published a list of 10 chemical substances that are the subject of the Agency's initial chemical risk evaluations, as required by TSCA § 6(b)(2)(A). The docket numbers, problem formulations, scope documents and supplemental documents for the 10 chemical substances that EPA initiated the risk evaluation process for in December 2016 can be found here:

- [Pigment Violet 29](#) (TSCA SACC meeting, June 2019)
- [1,4 Dioxane](#) (TSCA SACC meeting, July 29-Aug 2, 2019)
- [Cyclic Aliphatic Bromide Cluster \(HBCD\)](#) (TSCA SACC meeting, July 29-Aug 2, 2019)
- [1-Bromopropane](#) TBD – tentative Sept 10-12, 2019
- [Methylene Chloride](#) TBD
- [N-Methylpyrrolidone](#) TBD
- [Perchloroethylene](#) TBD
- [Trichloroethylene](#) TBD
- [Carbon Tetrachloride](#) - TBD
- [Asbestos](#) - TBD

Future meetings will focus on the Agency's draft risk evaluation for the remaining seven (7) chemicals: 1-bromopropane, methylene chloride, N-Methyl-2-pyrrolidone (NMP), perchloroethylene, trichloroethylene, carbon tetrachloride, and asbestos. The September meeting will focus on 1-Bromopropane.

We need to make sure that there is a quorum of TSCA SACC members (at least 11 members) and adequate representation of expertise (additional ad hoc members) to address the Agency's charge for each meeting scheduled. I know many of you have already attended the PV29, 1,4-dioxane, and HBCD meetings and there are 7 more draft chemical risk evaluations that need to be completed by the Agency and reviewed by the TSCA SACC before the end of

this year. This Panel has a heavy workload. We intend to spread the workload around and supplement your expertise with ad hoc members.

I have received responses from 14 of 21 TSCA SACC members. If you have not done so already, please send me your response to the four questions regarding "impartiality" with respect to 1-bromopropane, methylene chloride, N-Methyl-2-pyrrolidone (NMP), perchloroethylene, and trichloroethylene (see word file attached).

Tentative dates:

- 1) September 10-12, 2019. 1-Bromopropane. Responses to attend: Portier, Anderson, Bruckner, Doucette, Kissel, Schlenk, Willett, Cory-Slechta, Kaufman, Bennett, Blystone, Johnson (Sept 9-11), and Davies.
- 2) October 21-25, 2019. Chemicals TBD. Responses to attend: Portier, Anderson, Bruckner, Doucette, Kissel, Schlenk, Willett, Cory-Slechta, Kaufman, Bennett, Blystone, Johnson, Jimenez-Gonzalez (Oct 25-26), and Davies.
- 3) November meeting. Chemicals TBD. – please respond re availability.
- 4) December 2-6, 2019. Chemicals TBD. – please respond re availability

A public announcement for the September meeting is expected on August 9, 2019.

Time is of the essence. Please contact me if you have questions or concerns.

Thank you.

Sharlene (mobile: 240-286-4365 (Fridays); office: 202-564-0130)
